

10a energy storage power supply

Overview

12VDC or 24VDC selectable output. Short circuit and thermal overload protection. Zero voltage drop when switching over to. Maintenance-free energy storage based on double-layer capacitor, 24 V DC, 10 kJ, automatic detection and communication with QUINT UPS-IQ Prices and availability are not currently available. Please contact us or refresh the page. Need help?

SMP10 power supply/charger converts low voltage AC input into 12VDC or 24VDC @ 10A of continuous supply current (refer to specifications). This general purpose power supply has a wide range of applications for access control, security and CCTV system accessories that require additional power. So far there are no reviews of this product.) The product is verified as being authentic; however, this does not guarantee the condition or fit for purpose of the product. zip download then the file type is not supported by bulk download. Tariff may apply if shipping to the United.
