

1500V Energy Storage Battery Cabinet for Island Use

Overview

The MEGATRONS 373kWh Battery Energy Storage Solution is an ideal solution for medium to large scale energy storage projects. Utilizing Tier 1 LFP battery cells, each battery cabinet is designed for an install friendly plug-and-play commissioning with easier maintenance capabilities. Each battery cabinet includes an IP56 battery rack system, battery management system (BMS), fire suppression system (FSS). Delta's PCS1500 delivers 1000 to 1725 kVA with 98.4% efficiency in a compact, air-cooled design. It offers seamless integration with various mainstream battery brands and technologies, providing flexibility and reliability. According to different application scenarios, lithium battery, bidirectional DC / AC converter, bidirectional DC. SMS: The company received a procurement contract signed between its holding subsidiary, Shenzhen SMS Energy Storage Technology Co., Ltd and Dongguan Xiaodong New Energy Co. Xiaodong New Energy purchased energy storage system (specification: SE2000L-215, including battery system, BMS, PCS, liquid. High voltage and large capacity: Meet the energy storage needs of high power and large capacity, store more electric energy, and provide stable power support for large electrical equipment or systems. also adds 24VDC, which can support black start. > Modular PCBA design with convenient expansion for level 2 and 3.
