

A16 weight of battery cabinet

Overview

The compact, stackable chassis with dimensions of 650 × 350 × 790 mm and a weight of 131 kg ensures a solid mounting and high rigidity of the cabinet. The IP54 protection protects against dust and splashing water, making the unit suitable for both indoor and protected outdoor use. Key Features: • Advanced battery chemistry with superior cycle life and deep discharge capabilities. • Professional-grade construction for commercial applications • Optimized for business and industrial use cases. Battery cabinet that includes Lithium-ion batteries, Battery Management System (BMS), switchgear, power supply, and communication interface. Schneider. Note: Don't reverse battery polarities or battery will be damaged. Batteries with a capacity of 53 Ah type ATK-SESA16 are designed for standard domestic photovoltaic systems with an output of around 10 kW; they offer usable energy of 16.2 kWh at a nominal voltage of 307 V. The set contains 4 battery modules. Anti-corrosion, customizable, and durable. Popular in the UPS and inverter industry, these cabinets can house up to 40 x 12V100Ah batteries. Our powder-coated cabinets are non-movable and easy to construct in any clean environment.
