

Automatic discount type for marine integrated energy storage cabinet

Overview

GE's team of SeaLab marine engineering and applications experts are on hand to advise you on the best and most cost-effective way to integrate SeaGreen* ESS into your current fleet or new build configuration, customizing it to suit the functionality you need for your vessel operations. Vessels with variable operating profiles and fluctuating loads, benefit from the ability to store excess energy onboard, with instant access to and rapid replenishment of the store to ensure energy usage is improved. It. Energy-storage solutions (ESS) from Siemens are creating more agile, profitable and sustainable vessels. The batteries and all control, interface, and auxiliary equipment are delivered in a single shipping container for simple installation on board any vessel. We have extensive manufacturing experience covering services such as battery enclosures, grid energy storage systems, server cabinets and other sheet metal enclosure OEM services.
