

Automatic installment payment for photovoltaic cabinetized systems

Overview

The cost of the installation is paid through agreed-upon installments in the contract, which can even be specified in the solar panel budget. We have custom solutions to fit your business needs. Two are direct purchases, where you own the system, and two are third-party owner payment options. Each option has benefits for people in different situations. If you work with a reputable partner like an Enphase. If you're paying \$205 per month today, that's about \$87,000 you'll spend on electricity in the next 25 years, accounting for inflation. Solar panel systems typically last for 25 years or more and offset most or all of your monthly electric bill, which means you can avoid the vast majority of that. With the cost of solar panels plummeting and a 30% federal tax credit available, ownership has become the preferred option for homeowners in the last decade. The "One Big Beautiful Bill" signed into law, the federal solar tax credit claimed. That's why at Greenvolt Next, we offer different financing models for solar installations.
