

Cabine liquid-cooled energy storage products

Overview

The liquid cooling battery cabinet is a distributed energy storage system for industrial and commercial applications. It can store electricity converted from solar, wind and other renewable energy sources. With a 261kWh stand-alone capacity and 125kW output (peaking at 137. Have. Engineered with Grade A LiFePO4 cells, multi-level protection, and AI-powered monitoring, our liquid-cooling storage cabinet delivers safe, efficient, and scalable energy solutions for modern power needs. Featuring a high-efficiency liquid cooling system, it ensures superior thermal balance, longer battery life, and stable performance under various environmental. The commercial and industrial energy storage solution we offer utilizes cutting-edge integrated energy storage technology. Our system is designed to enhance energy density and thermal performance, accelerate installation times, engineered for optimal serviceability, and minimizing capital.

Article Content

Liquid-cooling Energy Storage Cabinet

Our liquid-cooling energy storage cabinet is engineered for high-efficiency, scalable ESS solutions. It combines top-tier LiFePO₄ cells, advanced liquid cooling, and AI-powered safety features to ensure ...

Liquid Cooling Energy Storage Systems | All-in-One BESS Cabinet ...

Ranging from 208kWh to 418kWh, each BESS cabinet features liquid cooling for precise temperature control, integrated fire protection, modular BMS architecture, and long-lifespan lithium iron phosphate ...

Cube 261

The liquid cooling battery cabinet is a distributed energy storage system for industrial and commercial applications. It can store electricity converted from solar, wind and other renewable energy sources.

All-in-One Liquid Cooling Energy Storage Cabinet

Designed for commercial and industrial applications, this 261kWh energy storage cabinet integrates cutting-edge 314Ah LiFePO₄ battery cells with a high-performance liquid cooling system to achieve ...

Liquid-cooled energy storage cabinet – CHARGING-CUBE

Fast charging for long-distance travel on highways and expressways. Commercial charging hubs in urban and business districts. Public and private parking lot charging solutions. Dedicated charging ...

261kWh Liquid Cooling Energy Storage System | Wenergy

The 261kWh liquid-cooled BESS is an advanced outdoor energy storage cabinet designed for commercial and industrial applications. Featuring a high-efficiency liquid cooling system, it ensures ...

Liquid-cooling Cabinet (Outdoor)

Our system is designed to enhance energy density and thermal performance, accelerate installation times, engineered for optimal serviceability, and minimizing capital expenditures (CAPEX).

Containerized Liquid Cooling ESS VE-1376L

Vericom energy storage cabinet adopts All-in-one design, integrated container, refrigeration system, battery module, PCS, fire protection, environmental monitoring, etc., modular design, with the ...

SolaX ESS-TRENE | All-In-One C& I ESS Cabinet

The SolaX ESS-TRENE is an all-in-one C& I energy storage cabinet, in liquid cooling model. Equipped with high-performance LFP cells, advanced energy management, and robust safety features, suitable ...

836kWh Liquid Cooled Battery Storage Cabinet (eFLEX BESS)

Equipped with MSD fuses and intelligent Battery Management Units (BMUs), it delivers a safe and stable energy storage solution for even the most demanding environments.
