

Corrosion-resistant energy storage cabinets for network server rooms

Overview

Constructed from high-grade, SS 304/316, stainless steel, our enclosures are engineered to resist corrosion, rust, UV exposure, and physical impact—making them ideal for both indoor and fully exposed outdoor environments. Open and enclosed server rack and network rack solutions for a variety of environments including data centers, server rooms, network closets, offices, industrial, and specialty applications. Bring networking and computing exactly where you want it - like the factory floor or warehouse - with NEMA & Nemaco™ provides high-quality, durable server rack cabinets designed with water-resistant construction to protect sensitive electrical equipment and communication networks in demanding environments. With advanced environmental barrier control and durable construction, our climate-controlled cabinets provide protection against heat, dust, water, and environmental. Eaton's industry-leading thermal management solutions, coupled with its broad range of server and network racks, enclosures and cable management, help customers meet evolving technology requirements and optimize data center airflow. Nemaco can customize many of the standard 19 inch Rackmount Enclosure & Cabinet product to meet our customer's.
