

Corrosion-resistant outdoor photovoltaic cabinets for Manila chemical plant

Overview

E-abel's NEMA 4X electrical enclosures are specially built to withstand both aggressive weather and corrosive atmospheres. Ideal for outdoor and washdown applications, the 4X series adds corrosion resistance (via stainless steel or non-metallic materials) on top of NEMA 4-level. Driven by the goal of "environmental protection", photovoltaic energy storage containers have become the core unit of the new energy system, shouldering the dual missions of photovoltaic power generation storage and power dispatching.
