

Delivery date of 120kw energy storage cabinet in mexico

Overview

In anticipation of this Payment and the Company's sales pipeline, EnWave began manufacturing a 120kW REV™ machine in late 2024, allowing for the delivery of Procecir's 120kW REV™ machine in July 2025. CRE regulation integrates batteries, intermittency management and grid operation backup through energy storage. Electric energy storage has become a crucial component in the transition to more sustainable, reliable and efficient energy systems. In Mexico, this concept has taken on greater relevance. One of the stand-out takeaways from the recent Intersolar Mexico 2024 trade show was the vital importance of integrating energy storage into the national energy mix. President-elect Claudia Sheinbaum Pardo has already announced a national energy plan focused on driving renewables investment. VANCOUVER, British Columbia, April 29, 2025 (GLOBE NEWSWIRE) -- EnWave Corporation (TSX-V:ENW | FSE:E4U) ("EnWave", or the "Company") announced today that it has received the second progress payment (the "Payment") pursuant to a previously announced Equipment Purchase Agreement (the "Agreement"). Over the past 5 years, Mexico's energy storage cabinet exports have grown by 72% (2023 Global Energy Storage Report).
