

Delivery time of the 500kwh outdoor telecom cabinet

Overview

A: The design cycle is 7-15 working days for conventional solutions, and 20-30 working days for complex large-capacity ($\geq 1\text{MWh}$) projects. Q: What is the warranty period of the energy storage system?

Does it cover the battery cells?

We offer flexible shipping solutions by sea, air, or express according to order volume and destination. Standard export packing is used to ensure product safety during long-distance transportation. Delivery time varies depending on shipping method and port schedule. Q: What customized services. converters, energy management monitoring systems, power distribution of local load power, photovoltaic power generation priority is self-generation and self-use, and surplus electricity storage. The Type 4 telecom power outdoor cabinet is a new generation platform designed to meet customer needs, give configuration flexibility and supports a variety of applications. The cabinet is well suited for power, batteries and telecom equipment. is a high-tech enterprise focused on the field of power transmission, distribution, and control systems, integrating research and development, production, sales, and service.
