

Discount for grid-connected solar energy storage cabinets used in emergency rescue

12.8V 200Ah

Overview

The Self-Generation Incentive Program (SGIP) is a California financial rebate program. The program helps residential and non-residential customers have power during planned and unplanned power outages. This rebate may cover 15 percent to 100 percent of the installation. Incentives are now available to cover most or all upfront costs, helping you save money and allowing you to keep essential devices (such as medical equipment, refrigeration, air conditioning, lighting, electric well pumps) powered during Public Safety Power Shutoffs (PSPS). To support customer resiliency and grid reliability, the CPUC has authorized funding of \$252 million for. Authorized by Section 40101(d) of the Bipartisan Infrastructure Law (BIL), the Grid Resilience State and Tribal Formula Grants program is designed to strengthen and modernize America's power grid against wildfires, extreme weather, and other natural disasters that are exacerbated by the climate.
