Overview

EPC Energy serves the utility and developer market with multi-MWh solutions featuring 40' container or skid-based designs. These scalable designs feature integrated LFP battery racks, power electronics, HVAC, fire suppression, energy management system (s), and balance of plant. converters, energy management monitoring systems, power distribut quision of local load power, photovoltaic power generation priority is self-generation and self-use, and surplus electricity stora Pilot Integrated ESS is highly combined with LFP battery system, BMS, PCS, EMS, liquid cooling system, fire protection system, power distribution and other equipment inside the cabinet. Custom-made cabinets and enclosures are essential for projects that have specific requirements in terms of size, material, protection type. Huijue Group's energy storage solutions (30 kWh to 30 MWh) cover cost management, backup power, and microgrids. To cope with the problem of no or difficult grid access for base stations, and in line with the policy trend of energy saving and emission reduction, Huijue Group has launched an. In-house IoT EMS hardware and software provide cost-effective solutions for managing distributed energy resources. Scalable from single asset control to complex microgrid and utility environments.
