

Fiji home solar system application

Overview

From the design of small village solar power systems to the installation of the grid and off-grid systems, we can offer a solution to suit the needs of domestic, commercial, tourism, and rural clients. Fiji has abundance of sunshine and with this available resource; the Department of Energy (DOE) has been able to utilize it to its full potential. Remote villagers and settlements which could not be connected to the FEA grid and houses that have been distributed further apart gives us no other. Your Solar Guardians! Contact Your Solar Guardian and Start Saving Today! Fronius inverters are lauded for their innovative technology, efficiency, and robustness, making them a popular choice for residential and commercial solar installations worldwide. Sungrow inverters have gained a strong reputation for their reliability, high efficiency, and advanced grid support. Solar Fiji has successfully engineered, designed, and installed one of the largest residential hybrid solar power systems in Viti Levu Drive, Pacific Harbor, Suva. This cutting-edge system delivers an average output of 6. Anyone can generate and store reliable power.
