

How many base stations are there in South Ossetia

Overview

The south western corner of South Ossetia was the scene of tension buildup and shelling of villages in 2008. The eastern portion fell within the 15km JKPF “Conflict Zone” around Java / Dzau is the largest district of South Ossetia consisting mostly of high mountain territory. It also forms the entire South Ossetian border with Russia. The famous Roki tunnel on the border and the sole access route from Russia, played a crucial role in the Russian. The eastern most district of South Ossetia is the closest to the Georgian capital Tbilisi, a predominantly Georgian populated area, especially along the Ksani river valley, the central river of the district. It is a generally mountainous area, with the one exception to. The district of the capital Tskhinvali is obviously key to the Russian military presence with a large military base in the capital. The district itself hosts the longest section of the. In a more recent development, the Russian FSB has been setting up electronic surveillance and observation technology along the ABL. With Georgian civil activists.
