

Largest size cylindrical solar energy storage cabinet lithium battery

Overview

Our Lithium Ion Battery Storage Cabinet LBSC-A11 is suitable for large-scale battery storage, EV charging stations, and energy storage facilities. It provides high-capacity containment with integrated fire response systems and enhanced safety for demanding environments. Dual-wing doors provide full-width access, making it easy to handle multiple or oversized battery units. Designed for use in a climate controlled environment, it regulates temperature and provides active smoke monitoring with an alarm system. Constructed with long-lasting materials and sophisticated technologies inside. The C&I ESS Battery System is a standard solar energy storage system designed by BSLBATT with multiple capacity options of 200kWh / 215kWh / 225kWh / 245kWh to meet energy needs such as peak shifting, energy back-up, demand response, and increased PV ownership. These outdoor battery enclosures, which come in all shapes and sizes, are designed to withstand extreme elements, climates and environments.
