

London distributed energy storage project

Overview

Ofgem has shortlisted energy storage projects for the new LDES cap and floor scheme, featuring Li-ion BESS, flow batteries, pumped hydro and more. Ofgem is today (Tuesday 23 September) confirming the 77 projects entering the final assessment stage of a government-driven 'super battery' support scheme designed to secure investment, promote growth and stop green energy going to waste. Long Duration Electricity Storage (LDES) will play a key. Luca works to bring “the outside in”, connecting innovators and academics across sectors and disciplines, to explore the latest technologies that could be adopted to address oil and gas industry challenges. LDES projects include pumped storage hydro, compressed air and liquid air energy storage and flow batteries. AG's Energy team looks at the detail. A new energy company, ep Pixii, has been launched in London through a partnership between UK firm ep Group and Norwegian battery specialist Pixii. The joint venture aims to provide distributed energy systems to the UK market, focusing on commercial real estate, residential development, and.
