

Low-Temperature Type Lead-Acid Battery Cabinet for Battery Swapping Stations

Overview

TYCORUN offers a comprehensive and efficient commercial battery swap cabinet solution, covering swap cabinets, batteries, electric two- and three-wheelers. The swap cabinet uses intelligent charging strategies to optimize battery performance, with easy maintenance, real-time fault. EverExceed VRL A battery assembly cabinets are very durable, and easy to install. This solution is completely customizable and flexible to support your application requirement. We. The cabinets covered by the technical specification have been designed to contain the hermetic lead-acid electric accumulator batteries. Reliable Operation: Operates in a wide temperature range (-10°C to 50°C). Advanced Communication: Supports 4G, WIFI, and RJ45 for seamless. This product targets the three core pain points of low charging efficiency, frequent safety hazards, and insufficient energy replenishment facilities in the electric vehicle industry. Innovate the modular battery swap mode of "vehicle and electricity separation".
