

Low-temperature communication cabinets for Australian border outposts

Overview

Pick cabinets made from strong materials like galvanized or stainless steel. Built to withstand harsh Australian conditions, these IP-rated enclosures safeguard sensitive network and communication equipment from dust, rain, and unauthorised access. Available in both. We have designed cabinets to be used as single bays or interconnecting to provide flexibility for different applications. The Multi-Bay Outdoor Equipment Cabinets are available in 1, 2, 3, 4 or 5 bay configurations. CRS server racks and cabinets are hardy and robust whilst being contemporary in design, providing universal compatibility with servers, UPS. With over 20 million enclosures deployed and more than 50 years of innovation, Charles is the communications industry's go-to source for enclosed solutions. Combining a consultative approach and engaged support, we guide you through protecting your critical network infrastructure.
