

Modular Upgrade Version for Data Center Racks

Overview

These modular racks are a breeze to install, to upgrade, and to maintain. Each one of them incorporates tool-less reversing front and rear doors with U-position numbers and a wide-angle rotation of 130 degrees, along with removable cable ports, bottom covers, and power. Eaton's SmartRack® Modular Data Centers address this growing demand with IT rack, cooling and service enclosures that form a performance-optimized data center, or POD. The innovative design enables easy configuration and maintenance while reducing the overall cycle time to deploy a data center from. Vertiv™ SmartMod™ is a flexible platform, optimized for simplified deployment of critical IT assets. For small room IT deployments up to 10 racks and 100kW or less, SmartMod offers a simple way to install capacity in a fraction of the time a typical IT build might take. Vertiv Virtual Showroom. Schneider Electric, the leader in the digital transformation of energy management and automation, today announced new data center solutions specifically engineered to meet the intensive demands of next-generation AI cluster architectures. Evolving its EcoStruxure™ Data Center Solutions portfolio. Flexible scale-out: Configure IT space with choice of 5 to 100, 48RU racks supporting 5 to 115 kW per rack Option to be delivered with pre-integrated IT with easy refresh of full racks Supports Direct Liquid Cooling (DLC) to IT Field-expandable and great for footprint restricted sites Easily expand. Delta is proud to introduce its modular rack cabinet designed for maximum performance, convenience, flexibility and safety in high density IT room environments. Avoid expensive retrofits and speed your time-to-market.
