

Solar drip irrigation system in el salvador

Overview

Community Works has implemented solar-powered irrigation and water wells in El Salvador, boosting agriculture and providing clean water to rural communities. This project highlights the fruits of the collaboration between CoCoDA and its partners, who work side by side to bring in and/or distribution of irrigation water. SPIS can be applied in a wide range of scales, from individual or community financing institutions and other stakeholders. As a result, farmers as a major end-user group struggle to get sound information in order to rise and sunset, like (Hegazi 2. et al. Check out some of the other great posts in this blog.
