Putin Unveils Russia's Largest Solar Module Production Facility in | SMM

Russian President Vladimir Putin unveiled Russia's largest solar module production facility in the Kaliningrad region. The unveiling ceremony was held via video link.

Space-based solar power

SERT went about developing a solar power satellite (SPS) concept for a future gigawatt space power system, to provide electrical power by converting the Sun's energy and beaming it to Earth's surface, ...

Space-based solar power

OverviewHistoryAdvantages and disadvantagesDesignLaunch costsBuilding from spaceSafetyTimeline

In 1941, science fiction writer Isaac Asimov published the science fiction short story "Reason", in which a space station transmits energy collected from the Sun to various planets. The SBSP concept, originally known as satellite solar-power system (SSPS), was first described in November 1968. In 1973 Peter Glaser was granted U.S. patent number 3,781,647 for his method of transmitting power over long distances (e.g. fro...

A new ARVE study - "The status and prospects of the photovoltaic ...

To assess the possibility of meeting the growing demand, we analyzed the availability of production capacities throughout the production chain of solar photovoltaic plant components, as well ...

Russia Space-Based Solar Power Market (2025-2031) | Companies ...

Our analysts track relevant industries related to the Russia Space-Based Solar Power Market, allowing our clients with actionable intelligence and reliable forecasts tailored to emerging regional needs.

The largest production facility of components for solar power has ...

The largest production facility of components for solar power has opened in Russia. The volume of private investment in the new plant amounted to 30 billion rubles.

Top five solar PV plants in development in Russia

There were reports that during the Syria conflict and more recently, Russia obtained images from private satellite firms (like in China or from its ally ...

From Sputnik to Sanctions: Inside Russia's Space & Satellite Industry ...

There were reports that during the Syria conflict and more recently, Russia obtained images from private satellite firms (like in China or from its ally Belarus' satellite) to augment its own ...

Satellite production in Russia

On December 26, 2025, Reshetnev JSC, owned by Roskosmos, and FSUE Cosmic Communications (GPKS) signed contracts for the creation of four Express telecommunication ...
