

## Special offer for 200kWh photovoltaic energy storage cabinets for mining

### Overview

BSLBATT ESS-GRID Cabinet Series is an industrial and commercial energy storage system available in capacities of 200kWh, 215kWh, 225kWh, and 245kWh. It offers peak shaving, energy backup, demand response, and increased solar ownership capabilities. Utilizing a patented outdoor cabinet protection system, this solution safeguards against dust, rain, and sand, while optimizing channels for heat dissipation. The outdoor. Designed to support grid-tied and off-grid scenarios, the Hybrid ESS cabinet offers seamless integration and maximized space utilization, making it an ideal choice for growing energy demands. The components and their functions are as follows: Converts solar energy into direct current. Collects the direct current from multiple. Commercial and Industrial Energy Storage Schools, factories, gas stations and other commercial buildings with high energy demands can maximize energy use Energy independence and reduced grid power demand through solar PV and battery storage.
