

The largest energy storage power station investment company

Overview

With over \$1 billion invested in energy storage and solar systems across North America, Convergent has developed a robust portfolio that includes more than 800 MW / 1 GWh of energy storage and solar-plus-storage systems. In this article, PF Nexus recognises the contributions of the Top 10 energy storage investors in the world, highlighting their essential roles in the energy transition. By 2030, the global community aims to ensure universal access to affordable, reliable, and modern energy services. The companies listed here represent a mix of sizes, with many located in the United States, alongside notable names from Austria, Germany, and the United Kingdom. If the last decade was about mastering renewable energy generation, the next will be about mastering energy storage. Panasonic trades "over the counter" and not on a major exchange, however, so investors should. A research-backed ranking and directory of private equity investors financing the new energy economy—spanning renewables, storage, grid infrastructure, and digital-power convergence.
