

Warranty period for IP54 data center cabinets used in residential communities

Overview

Our standard warranty typically covers manufacturing defects for a specific period, usually years. During this time, if the cabinet shows any signs of faulty workmanship or defective materials, we will repair or replace the cabinet at no cost to the customer. The Vertiv™ SmartCabinet™ ID is an all-in-one micro data center that has been designed specifically for demanding environments. The robust IP54 rated cabinet provides environmental protection from harsh applications where dust and humidity could severely impact system performance and equipment. IP54 enclosures offer partial dust protection and resistance to water splashes —ideal for light indoor or semi-outdoor use. They're suitable for factories, garages, telecom equipment, smart devices, and public infrastructure. Given their importance, a warranty on. The SR24UBFFD SmartRack 24U Standard-Depth Rack Enclosure Cabinet is ideal for storing sensitive 19-inch rack equipment in factories, power stations, water treatment plants, construction areas, shipping facilities, warehouses, transport hubs and other working environments high in moisture, dust and. Their International (or Ingress) Protection IP rating system defines an enclosure's protective capacity, and then assigns an IP Code. The code labels an enclosure's IP followed by two numbers; the first digit shows the extent to which equipment is protected against particles, and the second digit. StruxureWare Data Center Expert appliances come with 2 years of factory hardware warranty and no software support. The Data Center Expert appliance and any additional device packs must be under active and complete software support in order to receive technical support and software upgrades.
