

Warranty period for rack-mounted outdoor energy storage cabinets for island users

Overview

What is your warranty policy?

10-year warranty with optional after-sales support. Do you provide certifications?

Yes. (“LG”) warrants that it will repair or replace defective internal parts (“Part”) of a qualified LG Energy Storage System (each, a “System”) that fail during the warranty period if such parts prove to be defective due to improper materials and / or manufacturing. FranklinWH warrants that your Products will be free from defects for twelve (12) years starting from 1) the date of the initial installation; or 2) twelve (12) months from the manufacture date, whichever comes first. FranklinWH will offer remedies according to the Remedies section. FranklinWH. The DuraRack includes integrated busbars and a DIN rail heater mount. Built to handle the elements, the DuraRack enclosure is IP54-rated for water and dust resistance — perfect for both indoor. These complete rack mounted systems vary according to the Inverter and amount of storage needed. They are made of galvanized steel, stainless steel or aluminum with heat insulation material. A PV + storage cabinet—often integrating solar inverters, batteries, charge controllers, and protective devices—can be a powerful, compact solution for residential, commercial, and even industrial applications. However, like any integrated energy system, it is only as reliable as its weakest.
