Our pre-integrated, plug-and-play solution combines high-energy density lithium-ion batteries with advanced power conversion and smart controls in a customized 40Hq shipping container. Designed for rapid deployment, it offers scalable capacity (up to XX MWh per unit) and seamless grid/renewables. in 40ft Containers. \$774,800 Solar Compatible! 10 Year Factory Warranty 20 Year Design Life The energy storage system is essentially a straightforward plug-and-play system which consists of a lithium LiFePO4 battery pack, a lithium solar charge controller, and an inverter for the voltage. Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can be used in the integration of various storage technologies and for different purposes. It seamlessly connects with your solar PV system to store excess energy, enabling intelligent energy management, significant cost. Every payment you make on Alibaba.
